## Microsoft MS-700

Managing Microsoft Teams  
<https://certificationtime.com/>

### QUESTION 1

You work as a Systems Administrator for your company. The company has recently purchased a subscription to Microsoft 365. All users in your company have a Microsoft 365 E3 license. You are in the process of configuring Microsoft Teams. You need to configure Microsoft Teams to ensure that users within your company can collaborate with users in a partner company. You plan to create guest accounts for users in the partner company. Users with Guest accounts must not be able to invite other guests. Only users in the partner company must be able to collaborate with your users by using Microsoft Teams. Which of the following should you configure?

- A. The external sharing settings in the SharePoint Admin Center.
- B. The external collaboration settings in Azure Active Directory
- C. The Anonymous users can join a meeting setting the in the Teams Meeting Settings.
- D. The Global Meeting Policy in the Teams Admin Center.

Correct Answer: B

### QUESTION 2

Correct Answer: B,D

### QUESTION 3

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution. After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen. Your company has a Microsoft 365 subscription. You plan to configure the environment to allow external users to collaborate in Microsoft Teams by using guest access. The company implements a new security policy that has the following requirements:

- Only guest users from specific domains must be allowed to connect to collaborate by using Microsoft Teams.
- Guest users must be prevented from inviting other guests.

You need to recommend a solution to meet the security policy requirements. Solution: From the Microsoft Teams admin center, you modify the global meeting policy. Does this meet the goal?

- A. Yes
- B. No

Correct Answer: B

### QUESTION 4

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution. After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen. Your company has a Microsoft 365 subscription and a Virtual Desktop Infrastructure (VDI) solution. The company's Microsoft Teams upgrade policy is set to Teams only coexistence mode. You deploy the Microsoft Installer (MSI) package for Microsoft Teams to the VD' solution. Several months later, users of the VD' solution report that their workstation is missing several new Microsoft Teams features. You need to ensure that the VDI solution users can use the new Microsoft Teams features. Solution: You uninstall the Microsoft Teams MSI package, and then reinstall a new Microsoft Teams MSI package.

- A. Yes
- B. No

Correct Answer: A
